Great atmosphere, service, food. My mother in i wanted fish and chips for her birthday dinner. There were six in our party, including an Englishman, who found it hard to believe that fish and chips would be as good as England's. 4 out of 5 received normal serving (3 pieces, each about 3 x 6). One person got a very small part. 3 pieces about 2 of 4 or less. It was significant. The waitress immediately called the manager who said each piece is weighed, the parts are all the same. It was obvious that the parts were not even close. (STRIKE 1 - should have offered to bring another plate or charge 1/2 price for 1/2 serving). We ordered carrot cake cupcake for the birthday girl and asked for a candle. After a while, the boss came out to tell us that cupcakes were notservable, so we ordered bourbon chocolate cake which was the birthday girls second choice. The desserts were delivered without candles. No mention of us sorry, we do not have a light. Nothing. (STRIKE -2. ). We got our bill and a person in our party ordered a special drink, Watermelon Cucumber Cooler - but without alcohol as she is pregnant. It was \$8.00. We asked the waitress to check this out. answer, - STRIKE 3. All the ingredients are prepared for, so they charge the same price for drinks served without alcohol. Should have been explained before serving this watermelon juice drink, should have been offered a shot of vodka (since it must have been ready for even if it was not served), should at least have been given a free dessert for the bad experience. STRIKE 4 - you always get a survey on your receipt when you leave this restaurant. No investigation was offered to us. Just the bill. We had to ask the waitress to give us our receipt so we could complete the survey, which I did. I usually give good remarks, but this time this manager created such a bad experience. I will not go back. Back.
